Bypass Manifold

All in one bypass installation

The Bypass Manifold comes with all the parts you need for a bypass installation of your chemical injector.

It will save you time and remove the headaches of installing your injector into the water supply. Just hang it on the wall and connect the injector.

features & benefits

- True 3/4" plumbing throughout
- Twist II Clean filter technology
- Union style non return valve
- Preset pressure regulator (3.5 bar)
- Left or right hand installation
- Quick and easy installation
- Minimal flow restrictions
- Protection from high pressure and water hammer
- Water filter ensures long life for your injector
- One model for all installation types
- Quick shut off of water supply for injector maintenance, without shutting of main water supply

Ideal for use with AquaBlend, Chemilizer, SuperDos and MiniDos injectors.

Includes
TwistII Clean
filter technology

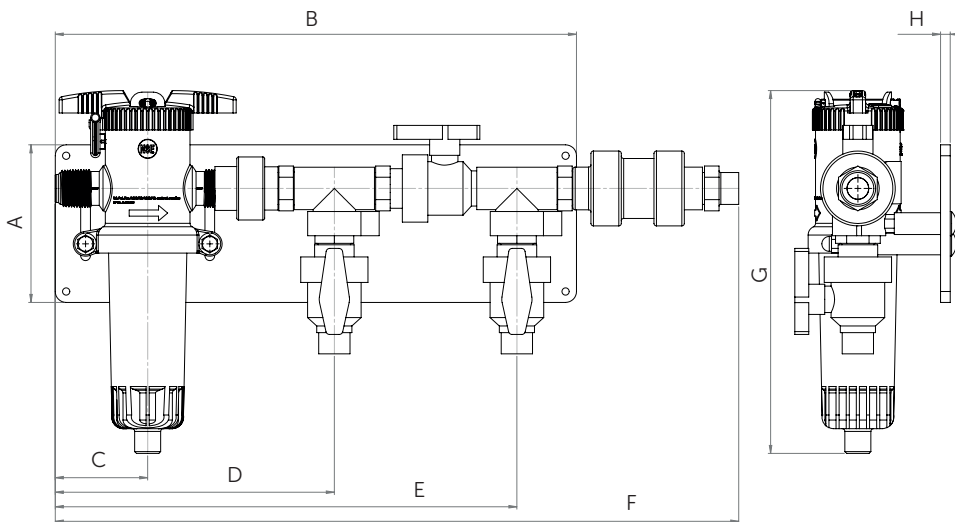

The Bypass Manifold includes a Twist II Clean filter. With their many unique and patented features and benefits Twist II Clean filters are a class of their own.

Bypass Manifold
